

ADVISORY SUPPORT PLAN (ASP)

End-of-year Review

Holy Cross Lutheran School (2010 PLP-R/W School) – NET Scheme No. 210

September 2017 to July 2018

Comments:

The school has employed an ELTA to share the NET's workload. A summative assessment workshop was arranged at the start of the year to support teachers with the writing of their test and exam papers.

AT has maintained regular contact with the NET and EPC, providing support and advice as and when it is needed. School is kept informed about the new Literacy initiatives i.e. Space Town. P1 and P2 Space Town units have been given to the school for trial. These were well received.

With rising no of classes in the 2018/19 school year and school's timetable changing to 6-day cycle, NET deployment for next year has been discussed in detail. School has been hiring an ELTA to support the school English programme and will continue to do so in the next year.
